II. BIS INTRODUCTION

1. BIS REGULATION
2. REGULATORY NOTICE

BIS REGULATIONS

Aleph INDIA

As a quality management organization in India, it plays a role in granting quality certification and industry standard for products sold and distributed in India.

The BIS product certification system aims to guarantee the quality, stability, and reliability of products for end consumers. (Items example: more than 180 items including Electronics & IT, Solar, Toys, Steel & Iron Products, Textiles, Chemicals & Petrochemicals etc.

Visit www.bis.gov.in to get the information you need, including BIS mandatory items, certification process information, Q & A and submission forms.

REGULATORY NOTICE

Aleph INDIA

S.O. 4044(E).—In exercise of the powers conferred by section 16, read with section 17 and section 25 of the Bureau of Indian Standards Act, 2016 (11 of 2016), the Central Government, after consulting the Bureau of Indian Standards, is of the opinion that it is necessary and expedient so to do in the public interest, hereby makes the following order, namely:-

1. Short title and commencement. – (1) This order may be called the Electrical Equipment (Quality Control) Order, 2020.

(2) It shall come into force from the date as mentioned in column (5) of the Table to this order.

2. Conformity to standards and essential requirements.– Every Electrical Equipment specified in column (2) of the Table to this order shall conform to the corresponding Indian standards specified in column (3) of the said Table with effect from the dates specified in column (5) thereof.

3. Compulsory certification, marking and labelling.– (1) Every Electrical Equipment specified in column (2) of the Table to this order shall bear the Standard Mark under a licence from the Bureau of Indian Standards as per Scheme–II in Schedule–II to the Bureau of Indian Standards (Conformity Assessment) Regulations, 2018.

(2) In a case where the manufacturer of Electrical Equipment specified in column (2) of the Table to this order has obtained permission to apply the Standard Mark under a licence from the Bureau of Indian Standards as per Scheme–I in Schedule–II to the Bureau of Indian Standards (Conformity Assessment) Regulations, 2018, he shall not be required to obtain permission from the Bureau under a separate licence as per Scheme–II in Schedule–II to the Bureau of Indian Standards (Conformity Assessment) Regulations, 2018:

Sl. No.	Electrical Equipment (Goods and Article)	Indian Standards	Title of Indian Standard	Date of Implementation
(1)	(2)	(3)	(4)	(5)
1.	Low - Voltage switchgear and controlgear: Circuit - Breakers	IS/IEC 60947 : Part 2 : 2016	Low - Voltage switchgear and controlgear: Part 2 circuit - Breakers (First Revision)	One year from the date of publication of this order in the Official Gazette of India.

3	**Professional Charges**	As Actual	Call at: 0-804-803-68-69

POINTS NEED TO BE CONSIDERED

Aleph INDIA

1. BIS Registration is only given to the factory, not office or liaison office. If you have multiple factories located at a different address geographically in the same country, you need to apply for the BIS registration respectively from those multiple factories.
2. • Select BIS recognized testing organization and an experienced compliance partner to assist you. While choosing a laboratory for testing of product, the accreditation of the lab should be valid and not suspended, and at any time laboratory shall not be in middle of or about to get audited.
3. • Before shipment of samples, make sure complete arrangements have been made for the entire shipment from your location to the testing laboratories door.
4. • All documents should be signed by the manufacturer, brand owner and Indian Representative and in addition documents should be notarized and stamped by the brand owner and Indian representative.
5. • Test report is valid for 3 months/90 days before its expiry test report should be submitted to BIS. In case, if you are unable to submit the report to BIS (Bureau of Indian Standards), then you have to submit the new sample again for testing.
6. • All documents shall be ready before the testing of the sample. Also there should be a dedicated authorized person with technical knowledge to coordinate at various stages.
7. BIS normally takes about 15 days to approve the registration. In some cases, it may vary like it can take 30 to 60 days which is a more realistic timeline to expect if the Bureau norms & timeline varies for any reason or the BIS laboratory delays sample testing due to slot unavailability.

APPENDIX I

AIR ROLES & DUTIES

AIR ROLE & DUTIES

Aleph INDIA

FOR DOMESTIC MANUFACTURER

- ✓ The domestic manufacturer can directly apply to BIS without nominating Authorized Indian Representative (AIR).

FOR FOREIGN MANUFACTURER

All foreign applicants have to appoint Authorized Indian Representative widely known as AIR. The nomination of AIR shall be varying as per followings:

- ✓ If the manufacturer has the liaison office /branch office in India, then they will become the AIR.
- ✓ If the manufacturer does not have the liaison office /branch office in India, but the proprietor / registered user of the brand/trademark appearing on the article is located in India, then the Brand/Trademark owner will become AIR.
- ✓ If the manufacturer does not have a liaison office located in India, and there is no proprietor /registered user of the brand/trademark appearing on the article located in India, then the other entity will become the AIR.

AIR ROLE & DUTIES

Aleph INDIA

- The manufacturer shall nominate and appoint a person as his authorized representative located in India after obtaining all necessary permission or sanctions, if required, under the Indian laws, setting out the terms and conditions of such appointment in writing, whose nomination shall be duly communicated to BIS in writing.

- The authorized representative may either be in-charge or a senior officer of the Indian office, or a legally appointed agent of the manufacturer in India. The nomination by the manufacturer shall be given on letterhead in the format prescribed.

- The form containing nomination of the authorized representative by the manufacturer either at the time of execution of this agreement or at the time of fresh appointment during the continuation of this agreement shall also contain the signature of such authorized representative who has been so appointed, in token of his consent and confirmation of the terms and conditions of this agreement and to signify his willingness for compliance of various provision of agreement/ BIS Act, 2016, and rules and regulations thereunder.

- The INDIA authorized representative appointed shall be deemed to be a person having ultimate control over the affairs of the manufacturer for the purposes of this agreement and as such shall be responsible for all due compliance of terms and conditions of this agreement as also provisions of BIS Act, 2016 and the rules and made thereunder and shall continue to be so till another authorized representative is appointed in his place in accordance with the terms of the agreement.
